SAFE PAINT AND VARNISH REMOVER (GEL)

NON-METHYLENE CHLORIDE

NON-CAUSTIC

EP Patent No. 0925335 US Patent No. 6632782

Floor Tile Cleaning

Directions:

1. Apply **Safe Paint Remover** gel generously on to paint spots.
2. Leave for 1 hour.
3. Remove softened paint by scraping with a tool or wiping with a damp cloth, as appropriate. Very thick paint spots will need to be treated again and left for an extra 10-15 minutes. Repeat if needed. Any thickness of paint can be removed.

When all paint spots are removed, the tiles will have "clean spots" which will give a mottled effect.

4. To deep clean the tiles, to give an even finish, apply a thin coating of **Safe Paint Remover**, using a paintbrush.
5. Leave for 10 to 15 minutes.
6. Wash off using warm soapy water. Rinse and allow to dry.

CAUTION. **Safe Paint Remover** contains detergents and will be slippery.

Safe Paint Remover will remove nail polish and acrylic nails. Use rubber gloves if preferred.
