DESIGNED TO BE KIND

Professional Chemical Products

SAFE GRAFFITI REMOVER (GEL)

Use with

GRAFFITI WASH

NON-METHYLENE CHLORIDE NON-CAUSTIC NON-ACIDIC

EP Patent No. 0925335 US Patent No.6632782

ABOUT THE PRODUCT

SAFE GRAFFITI REMOVER gel

Is a ready to use gel, designed to be applied by brush. Easy to use, it makes light work of removing painted graffiti.

VERSATILITY - SAFE GRAFFITI REMOVER gel

Soaks through and softens most types of paint or ink ready for easy, wipe off removal from hard, non-porous surfaces. Use with **Graffiti Wash** for shadow removal from masonry.

SPEED + EFFICIENCY

Fast and effective
Easier than steaming off
Easy to apply - suitable for large or small areas

ECONOMY More cost effective than

High pressure jetting removal
Steam jetting removal
Repainting large areas

SAFETY

Non-corrosive
Non-harmful to handle
No dangerous vapours

USER FRIENDLINESS

Pleasant. Safe to use. Non-toxic. Easy to wash tools after use.

Made in England

BFiY Winner 2002

PRODUCT INFORMATION

ENVIRONMENTAL FRIENDLINESS

This patented formulation contains biodegradable, non-caustic, non-corrosive, neutral ingredients, which all conform to Guidance for Responsible Public Procurement of Cleaning Products Handbook SEC(2004) 1050

WHAT IT DOES

Graffiti Remover It is a special formula paint remover which soaks into and softens most types of ink and paint on interior or exterior surfaces, softening them so that they can be easily wiped away.

WHERE TO USE

Safe Graffiti Remover is a thick gel with excellent non-drip characteristics. Use it on hard, non-porous surfaces as a cleaning gel or, together with **Graffiti Wash**, on masonry.

COVERAGE - Safe Graffiti Remover

- 1 litre covers from 2-4 square metres.
- 5 litres covers upto 20 square metres.
- 25 litres covers upto 100 square metres.

COVERAGE - Safe Graffiti Wash

- 1 litre covers from 2-4 square metres.
- 5 litres covers upto 20 square metres.
- 25 litres covers upto 100 square metres.

HOW TO GET THE BEST RESULTS

Please see Method sheet. Always :

1. Wash down with water after use.
2. Ensure no trace of remover remains.
3. Allow to dry before redecorating, if appropriate.
4. Wash hands after use.

STORAGE

Keep container securely closed. Store out of sunlight. Protect from frost.

Caution. Test before use on plastics. Wear protective goggles when working overhead or outdoors if breezy conditions. Wear butyl rubber gloves to remove softened coating. Prolonged contact with **Graffiti Remover** or **Wash** will soften paint, polystyrene, some grades of Perspex and Polycarbonate. **Safe Graffiti Remover** and **Graffiti Wash** are quite safe and may, by themselves, be disposed of via public drainage systems, but the advisability of this depends upon the type and nature of graffiti that has been removed.

DISPOSAL OF WASTE

Graffiti Remover and Graffiti Wash can be washed away, but if the paint removed contained lead, then the waste material will contain lead. Dispose in accordance with relevant regulations.
